"German Syrup"

Asthma.
"I have been a great sufferer from Asthma and severe Colds every Winter, and last Fall my friends as well as myself thought because of my feeble condition, and great distress from constant coughing, and inability to raise any of the accumulated matter from my lungs, that my time was close at hand. When nearly worn out for want of sleep and rest, a friend recommended me to try thy valuable medicine, Boschee's German Syrup. I am confident it saved my life. Almost the first dose gave me great relief and a gentle refreshing sleep, such as I had not had for weeks. My cough began immediately to loosen and pass away, and I found myself rapidly gaining in health and weight. I am pleased to inform thee—unsolicited—that I am in excellent health and do certainly attribute it to thy Boschee's German Syrup. C. B. STICKNEY, Picton, Ontario."

Chinese and Their Burials.
The Chinese of this city and New York, it is said will hereafter bury their dead in Cypress Hills cemetery instead of in the cemetery of the Evergreens, as has been their custom. This action is said to be taken because the Evergreens cemetery officials have increased the price of graves from ten to twenty dollars each. They have purchased an acre of ground in Cypress Hill cemetery for \$1,000 and will have cheaper rates in the future. The Chinese allege that twenty dollars is too much to pay for a grave which is tenanted for only five or six years, as every Chinaman makes a contract with the company that employs him under which the company agrees to send his body back to China. This transmigration of bodies takes place once every five years, the skeletons being packed in tin cases when the proper time comes. The last shipment was made only a short time ago. The skeletons then came from some of the old graves in the cemetery of the Evergreens.—Brooklyn Eagle.

The Graduates Didn't Understand.
There are many persons who think it about time to conduct the commencement exercises of Harvard university in English instead of in Latin. The continuance of the ancient custom caused much amusement for those present, for when President Eliot closed his Latin remarks by inviting the senior class to mount the platform to be presented with their degrees, not a man stirred. When the invitation was repeated, Chief Marshal Cunnock started up the platform steps, but a pull from behind, given by a less sanguine classmate, was too much for him, and he turned to go down again. A broad motion of the hand from President Eliot (given in English) finally induced him to continue, and thus the class followed to receive their degrees.—Boston Saturday Gazette.

A Book Agent's Suit.
Charles W. Dumont, the general agent for the Encyclopedia Britannica, commenced suit against Joseph M. Hawthorne, the West side attorney, to recover \$5,000 damages for an alleged illegal restraint of liberty. It seems that Mr. Dumont sold a set of the Encyclopedia to an attorney who has desk room in Mr. Hawthorne's office. The payments not being made Mr. Dumont went after the books, but was informed by Mr. Hawthorne that the attorney owed him, and he intended to keep the books to secure himself. When Mr. Dumont undertook to leave the room the door was locked. Mr. Dumont thereupon fired the books through an open transom and squeezed himself through after them. Hence the suit.—St. Paul Pioneer Press.

An Orchestra of Five Hundred.
Five hundred was the strength of the orchestra on the occasion of the Handel festival at the Crystal Palace at Sydenham in 1888. The festival is held at the palace triennially. The first festival in commemoration of this composer was held in Westminster Abbey on the 20th of May, 1784, on which occasion 268 persons composed the chorus, while the orchestra numbered 245 performers. In 1888 the chorus consisted of 3,000 voices and the performers in the orchestra numbered 500.—London Tit Bits

UNJUST TO MR. BLAINE.

The Helena, Montana, Journal, edited by Russel B. Harrison, the President's son, has the following editorial comments on Mr. Blaine and his friends:

"It does not seem to have occurred to the well-meaning but injudicious Blaine organs of Montana that they are inflicting upon their chief an obvious injustice in trying to create a Presidential boom for that gentleman at this time. An attempt has been made to educate the people to the belief that Blaine's reported illness is a figment of the imagination boomer of a malicious desire to thwart the purpose of those who are anxious to effect his nomination for the Presidency.

"There is, of course, nothing in the allegations of this character and no disposition to deal other than fairly with the interests of the Maine man and his friends. But Blaine has ample reason to demand deliverance from his friends at a time when they are so industriously seeking to compromise his political honor. Blaine is either a sick man, broken down from a complication of disorders, from which he has long suffered, or he is not a sick man. If his vital powers are not equal to the hopes and ambitions of his friends, and to the tremendous responsibilities of an active campaign, and a successful administration his availability is not a debatable proposition. Like Tilden, in 1880, he cannot afford to wager his vitality against defeat or have his strength drawn by his party and his country, though, on the contrary, he is as pictured by his Montana advocates, basking in the sunshine of perfect health. Friends of protection, who recognize in that question the chief issue of the next campaign, have a right to inquire why the powerful influence of the Maine statesman is not on duty as a factor in the great struggle for supremacy in Ohio.

The Journal believes that Blaine should be fairly treated, and that his political honor and his fidelity to the great principles of the Republican party should not for one moment be questioned. It believes that his lack of interest in the Ohio campaign is due alone to this delicate health, and we indulge in the hope that Providence will deal kindly with the brilliant New Englander and revive the energies that have so long been dedicated to the advancement of the party to which he belongs and which have popularized his name within its ranks.

"It is unjust to inflict upon his reputation that he is sulking in his tent in the pride of his manhood when the skirmish lines of a mighty battle are being formed. Blaine is a sick man. When he recovers his health and strength and gives the public evidence of his physical ability to shoulder the burden of a great campaign it will be time for his admirers to advocate his claims. In no other way can he be protected from the unjust imputation of the Democratic press and retain the political prestige to which his honorable career entitles him."

Nevada Republican papers which have been falsely accusing the Democrats of trying to make it appear that Blaine is in ill-health should bear in mind that the Helena Journal, in which the above comments appear, and the New York Mail and Express, which represents Mr. Blaine as being affected with an incurable malady, and the Washington Post, which says the Maine statesman had to leave his post in the Cabinet on account of ill-health, are not Democratic nor People's Party newspapers.

THE EFFECT OF THE SALTON SEA.

A dispatch says: The effect of the Salton Sea upon the climate of Southern California is becoming more apparent every day, and a feeling of alarm is gradually taking possession of many people over the ultimate outcome and result of the phenomenon. The weather throughout the whole lower part of the State has been exceedingly disagreeable for the past three weeks or more, and although the thermometer has in a few instances gone higher than usual at this time of the year the heat is of a humid character which makes the hot days of the East so hard to bear, and this effect is universally ascribed to the new lake on the desert.

San Diego's water supply comes from Cucamonga Mountains, upon the other side of which is the desert, and for several days the water which has come through the flumes to the city pipes has been so muddy as to make it unfit for domestic purposes. The water company is out with a card to-day ascribing the condition of the water to the cloudburst in the mountains caused by the presence of the lake. Deputy Sheriff Emery is down from Julien to-day. He says the lake is now sixty miles long and thirty miles wide, and that its influence is felt in unprecedented and tremendous rains in that town and throughout the mountains.

Daily the lake fairly steams with evaporation and its warm airs come in contact with the cool breeze from the

coast, with the result that the water falls at Julian and on the summit in torrents, accompanied by thunder and lightning. The opinion in the mountain country, he says, is that the lake will be permanent and eventually a part of the Gulf of California. At Mesa Grande 5:30 inches of rain fell on Tuesday.

A Texas Justice of the Peace has been arrested for running horses from Mexico into the United States.

MRS. ALICE COOPER CRANE.

The American Society Woman Who Claims That She Was Forced Into Marriage.

A law case that has set all society talking in the two greatest English speaking cities of the world, London and New York, is the appeal of Mrs. Alice Cooper Crane in London to have her marriage annulled. The grounds of the application are certainly the most extraordinary ever made before a court of justice. Miss Alice Cooper was born in New York and has lived many years with her widowed mother in the fashionable Pan. Her cousin, Walter Beverley Crane, met her there, and he, although but eighteen, and she eight years his senior, became desperately infatuated with her. A year or more afterwards they were in London, and, on a pretext of a ride to St. Paul's, young Crane inveigled Miss Cooper into a carriage. It was driven rapidly to St. Bride's Church, and on the

way Crane drew from his pocket a pistol and threatened to blow out his brains instantly if she did not consent to marry him. In a very great fright Miss Cooper consented, and the marriage ceremony was performed. Crane at once left for the United States, and the pair have never since met. The English Judge refused to annul the marriage, stating that Mrs. Crane proved too much. Walter Crane, who comes from a wealthy and aristocratic family and is now in New York, says that the story is a piece of fiction which he had agreed not to deny in order to promote the divorce. "The whole affair," he says, "was a piece of youthful folly and infatuation." The marriage was opposed by his parents. He met Miss Cooper in London and they were married with her full cooperation. Their letters grew cold, Crane has not seen his wife since, and now she probably wants to marry somebody else and has taken this extraordinary step to obtain a divorce.

Another Gold Discovery Near Wells, Nevada.

A dispatch from Wells says: A prospector named Matthew Shields came in last evening with seven pounds of decomposed quartz that is literally bespangled with gold. He is very reticent as to the location, but he is known to have been prospecting in the very rugged mountains at the headwaters of the Humboldt, Drunee and Salmon rivers.

According to his description as to the extent and richness of the development, which is beyond belief, gold in the near future will be as common as pig iron. His trail is being followed by a score of fortune hunters, with the assistance of Indians. Placer gold has been taken out in good paying quantities in the Brunan country for years past.

Eagle Lake.

The work of tapping Eagle Lake is steadily progressing, and good headway is being made on the out and connecting ditches, and the preliminary work will soon be sufficiently advanced to use an engine on drill and hydraulic works to an advantage.

We have heard the saying oft repeated in this section "that Eagle Lake must be tapped" before the great Honey Lake Valley can demonstrate to the world what vast resources and sustaining power it possesses, and this we think is true. Water it must have and plenty of it, and we hope the day is not far distant when water from the lake and many other sources may be distributed so thoroughly in Lassen county that she will be enabled to take rank with her sister counties in accordance with her possibilities.—Advocate.

"Street fakirs" did a lively business last evening and took in fifteen or twenty persons to the extent of five or ten dollars each. The dupes imagined the "fakirs" were foolish enough to give \$7.50 for \$5. When they found they were taken in they scoured the town for the swindlers, swearing they would have blood or their money, but at a late hour had not succeeded in getting either, as the fakirs had skipped by the light of the moon.

An exchange says a gentleman desiring to test the endurance of a horse, drove 1,000 miles to a cart, passenger and baggage weighing over 800 pounds. The journey was made in nineteen consecutive days, an average of over fifty-two miles a day, and the longest distance, sixty-eight miles, was covered the last day.

BY TELEGRAPH.

News of Importance From Home and Abroad.

A Disastrous Explosion—Many Lives Lost.

Special to the Journal.

New York, August 22.—This afternoon a small vaporish cloud was seen to burst from the ground floor of 70, 72 and 74, Park Place, followed by a dull roar. Then there was an eruption of brick, stone and timber which were hurled thirty feet into the air. Then the front walls of the buildings of 70 and 74 fell crashing into the street, leaving not the slightest resemblance to what had been a few seconds before apparently substantial buildings. A mass of fallen timber and brick filled the street, which was crowded with pedestrians and teams. A fire broke out in No. 68, and the rescuers who had clambered into the ruins to assist the wounded people out were forced to retreat. The fire spread rapidly, but owing to the dense crowd which packed the neighboring streets the fire department could not get to the scene for several minutes. While the firemen were concentrating their efforts to one side of the building flames burst out of the third, fourth and fifth stories of the building occupied by Lindsey's type foundry. The firemen checked the flames however. On the ground floor of No. 74 was a cheap restaurant in which were seated 25 persons at the time of the accident. In the upper portion of the building there were a large number of people employed and it is thought they were all there when the explosion occurred. It was three hours before the fire was sufficiently subdued to allow firemen to extricate the dead and wounded from the ruins. The number of dead was variously estimated at from 50 to 200. Policeman Peck who got into the restaurant kitchen said he hauled out three bodies from there and saw at least fifty more dead and wounded. He saw people fast in the ruins but was driven back by the flames before he could aid them. It is thought there were at least 100 people in the building when the explosion occurred. A dozen girls were seen in the third floor windows just as the building fell. Louis Bernard fell from the fourth story when the building fell but picked himself up and ran out of danger. He is now in the hospital.

The firemen worked like fiends to rescue the wounded. After 30 minutes' work the body of a man was found mashed beyond recognition. Fifteen minutes later another charred body was found, and buried under a heap of rubbish a little girl, still alive.

Editor: Owing to Eastern wire troubles it is impossible to get further details of the accident from New York for you to-night. OPERATOR.

The Martinique Calamity.

Special to the Journal.

St. Pierre, Martinique, August 22.—The full extent of Tuesday's calamity can't be determined. From many parts of the island only vague and indefinite reports are received. The mountain roads in many instances are obstructed by falling timber and other debris, thus rendering many villages extremely difficult of access. Every fresh report brings new details of universal havoc and devastation. A hurricane struck the island about 7 o'clock Tuesday night and continued to rage until 11. Hardly had the terrific storm died away when a sharp earthquake shock added to the horror of the night. To-day it is known that two hundred and fifty persons met instant death. It is not improbable that more accounts will add still more names. No attempt has been made to ascertain the number injured, but the probabilities are that thousands have received injuries more or less. Efforts are being made everywhere to repair the damage here in St. Pierre. The first endeavor is to get new roofs, for hardly a roof in the entire city remains intact. Not a single craft that was in the harbor when the storm struck the island remained after it.

The Santa Fe Railway to Enter San Francisco.

Special to the Journal.

SAN FRANCISCO, August 22.—The Chronicle says there is enough proof to warrant a direct statement that the Santa Fe road is trying to effect an entrance into San Francisco. The purchase of the water front land at Antioch, and the survey from Santa Cruz to Fresno are cited as evidence. The paper states that the Santa Fe has planned to reach San Francisco by two routes branching off at Fresno from the main line from Mojave, one line will come up the San Joaquin Valley, through Pacheco Pass by Watsonville to Santa Cruz and thence to a connection with the San Mateo electric railway from this city. The other road will run up the San Joaquin Valley to Antioch, where it will connect with the steamer line to this city.

Wanda Beats Silas Skinner.

Special to the Journal.

NAPA, Cal., August 22.—In the match race between Silas Skinner and Wanda for \$1,000 a side and a \$500 purse, Wanda won in three straight heats. Time 2:19 1/4, 2:20 and 2:17 1/4.

Warmest Day of the Season.

Special to the Journal.

HEALDSBURG, Cal., August 22.—This has been the warmest day of the season, the thermometer registering 105 at 12 m. in the shade.

A Great Fire Raging Near San Rafael.

Special to the Journal.

SAN RAFAEL, August 22.—About noon to-day a fire was discovered on the ranch of George Dickinson, and before its headway could be checked it communicated to the adjoining ranches of Lezzens & Joy and the Bolivias road.

The fire has already burned over a vast tract of pasture land, and hundreds of tons of hay and cords of wood have been destroyed. On account of the thick brush in this vicinity it is difficult to fight the fire and it is expected that thousands of acres will be burned over before it can be extinguished, even with a larger working force than are now engaged in fighting it.

The large ranch of A. W. Foster has been burned over. This evening the sky in the direction of the fire is brilliantly lighted and is a magnificent spectacle from here.

From the latest reports it is learned that the fire is spreading in the direction of the residence of Mrs. Porteous on the Talmaspia grade. Should this report prove true there is no doubt but that this fire will prove as devastating as that of a month since. Dairywomen located on the San Geromino ranches are driving their cattle to a place of safety, as that locality is threatened.

Burglar and Desperado Captured.

Special to the Journal.

HANOVER, N. H., August 22.—It has been established beyond a doubt that Frank Almy is George Abbott, who escaped from the Windsor, Vermont State Prison about six years ago. Warden Oaks and two Superintendents from Windsor this morning positively identified him. Abbott is known as an expert burglar and desperate criminal. At the time of his escape he was serving out a sentence of fifteen years, having been convicted on nine different indictments for breaking into and entering houses to which he pleaded guilty in 1881. When Abbott was arrested in 1881 he was the ringleader of a gang of burglars who operated in towns up and down the Connecticut river.

Democratic Campaign Opened.

Special to the Journal.

CARROCKE, Ia., August 22.—The city to-day was full of Democrats who came to assist in the opening of the State campaign. A large mass meeting was held this afternoon and was addressed by Governor Boies at great length. The Prohibition law, he declared, had proved a failure, and cited the fact that 4,095 persons in the State, or an average of more than 41 in each county held Federal licenses for the sale of liquor. The Democratic broad proposition is to let each city, town and township determine by vote whether they do, or do not want licensed saloons.

Storms in Kansas and Missouri.

Special to the Journal.

St. Louis, August 22.—Dispatches from several points in Missouri indicate the storm which did so much damage at Atchison, Kansas, and Kansas City, Missouri. It played havoc with grain in stacks and standing corn, as well as doing immense damage to houses and barns. At Steelville the streets were submerged in places deep enough to swim a horse. Not a bridge remains across a stream that runs through a town. Bonne Terre reports that one hundred and fifty feet of track of the Missouri & Bonne Terre Railway was washed away.

How's This?

We offer one hundred dollars reward for any case of catarrh that cannot be cured by taking Hall's Catarrh Cure.

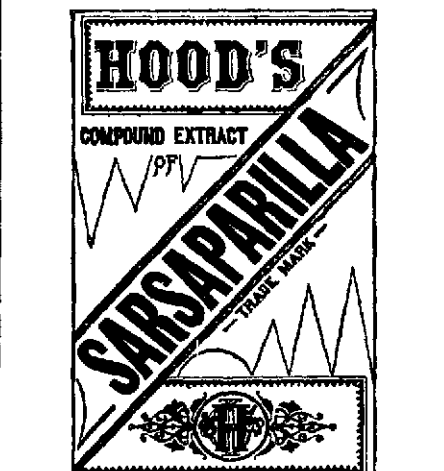

F. J. CHENEY & Co, Prop's., Toledo, Ohio.

We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly able to carry out any obligations made by his firm.

WATER & TRUXAX, wholesale druggists, Toledo, Ohio.

WALDING, KINMAN & MARVIN, wholesale druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence.

Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

PRICE OF DAILY JOURNAL,

FIFTEEN CENTS PER WEEK

Delivered by Carrier,

SUNDAY.....AUGUST 23, 1891

BREVITIES

Bar silver 98%.

General R. M. Clarke visited Reno yesterday.

There will be a baseball game at Steamboat today.

M. S. Bonfield of Winnemucca arrived in Reno last night.

G. W. Grayson passed west last night on his return from Beowawe.

Mrs. B. F. Bacon and daughter arrived from San Francisco yesterday.

Yesterday was a warm day. The thermometer ranged from 92 to 94 in the shade.

The race track is in excellent condition now, and is quite a lively place mornings and evenings.

General C. W. Booton of Oakland, is visiting Reno. He says Nevada is as good a country as he knows of.

O. Chenoweth and wife of Winnemucca arrived yesterday from an extended visit to California and left last night for home.

The members of Company C are making great preparations for their fan party to be given Friday evening, August 28th.

In the District Court yesterday, Judge Cheney presiding, a divorce was granted E. A. Bates from his wife Della A. Bates.

Don't forget the race at Steamboat Springs to-day between "Joe" and Jim Snowden for a stake of \$250. It will be interesting.

Members of Company C are notified that there will be a meeting of the company Monday evening. Business of importance to be transacted.

Berry & Novacovich received a car-load of luscious watermelons yesterday. The employees of the JOURNAL can testify to the quality, as that enterprising firm furnished them with a fine sample.

Right Rev. P. Monogue, Bishop of the Catholic Diocese of Sacramento, arrived in Reno Friday night. He will administer the sacrament of confirmation in St. Mary's Church after the last mass to-day.

The JOURNAL is informed that several parties have been shooting ducks and snipe the last few days. There is an organized effort being made to prosecute any one killing game before the first of September.

The Western Union Telegraph Co.'s employees wish to thank Messrs. Berry & Novacovich for presenting them with two luscious, Lodi, California, watermelons yesterday. "Little deeds of kindness, etc."

Chauncey Haskell, foreman of the Winthers ranch in Washoe Valley, visited Reno yesterday. He says they are making 500 pounds of cheese every day and are receiving orders from all parts of California and Nevada for it.

Mrs. M. D. Foley will leave on the 20th instant for Chicago, to attend a meeting of the Ladies Board of Managers of the World's Fair, on September 2d. She will be accompanied by Hon. George Russell and daughter of Elko.

The incandescent lights are a great convenience to the people of Reno, and it is to be regretted that the managers are considering the advisability of discontinuing them. It is to be hoped that they can see their way clear and keep them going.

It now transpires that one of the shots fired by James Wiley Thursday night was aimed at John Hogan, a bullet hole being discovered in the door-casing near where Hogan stood. Wiley has been held, and his examination will take place Monday at 10 o'clock.

Deputy Sheriff Caughlin received a bull terrier from a friend in San Francisco yesterday morning, and was kept busy all day endeavoring to clear the brute of fleas, of which he had a liberal supply. Johnny thinks the dog brought enough of them with him to stock the entire county.

Dr. Phillips reports the case of diphtheria on the south side of the river as nearly recovered, and says he has no other cases on hand. W. H. Frazier's family have all recovered. Morris Davis is improving and Lee McLothe is nearly well. No other cases have been reported, and it is probable that the disease is now a thing of the past.

Mr. and Mrs. Herman Olerichs in their parlor car Grassmere, crossed the Continent from San Francisco to New York in four days, eighteen hours and forty minutes, arriving in New York Thursday afternoon at 2:10 o'clock. This is the speediest run ever recorded between the Atlantic and Pacific. The party passed Reno last Sunday morning.

People have shown their confidence in the stability of Reno, which, during the year, has shown more life than any other place in the State. Many new and fine residences have been erected during the past year and several are now in course of construction. Those which have been and are now being built are not cheap affairs, but are all well constructed and are ornaments to the town, all of which shows conclusively that the people have no fear for the future of Reno. There are but few vacant houses here.

The San Francisco Grand Jury Charged by Judge Wallace.

Thursday Judge Wallace proceeded with the work of impaneling the Grand Jury. The Court then announced that Barclay Henley was appointed foreman of the Grand Jury and he was sworn in by the clerk of the court.

Judge Wallace then proceeded to read his charge.

The charge was quite sensational in character. After giving an interesting history of how the Grand Jurors came first to be adopted, away back in English history, he goes on to say:

"Your special and peculiar mission is to look after and inquire about that important mass of affairs—public affairs—which concern everybody in general and nobody in particular, and as which it is paradoxically and proverbially said that being everybody's business it is nobody's business."

"These public affairs thus placed under your scrutiny are not municipal merely; you are not limited to even the very careful examination of the books, records and accounts of the more than forty officers which are embraced in the government of the city and county of San Francisco and to which the law makes it my duty here to call your especial attention. You are therefore not to content yourselves with looking to see whether in November and December of the last year more coal was purchased and purported to be consumed by the public officers here than could have been honestly expended in one-half year of time, nor whether it cost the city \$800 per annum for the keep of a horse, nor yet whether the setting up of a single hydrant in our streets is \$45 with \$30 more to maintain it for a single year. Such things as these must of course be looked to and carefully looked to by you; but as speculations they are but minor in character. They but point the way to other and larger and more serious wrongs committed or said to have been. It is asserted that at the late session of the Legislature the county of Colusa was territorially dismembered as a result of legislation procured by bribery; that part of the bribe was a promissory note for \$20,000, now or lately held on deposit in this city, its payment to await the ultimate effectuation of the measure. It is rumored—indeed became notorious,—that at the same session a corrupt combination—a trust—was formed by a majority of the members of the Senate of the State to sell the legislation of that body to purchasers for a price, and that a like combination for a like purpose was organized in the Assembly. Indeed, a suit to recover a sum of money, which is said to have been part of the gains made in that business, was lately brought and actually tried here in this department of the court."

"I advert to these matters merely by way of introduction to an illustration of the instruction which I now give you, which is that for you such rumors are facts. Not facts, of course upon which to find an indictment or indictments of anybody—that can only be done after legal evidence of the commission of the offense shall have first been obtained by you—but these rumors are facts upon which your inquisitorial investigating power is put in motion. You must investigate them; you must inquire concerning them—not in a formal or perfunctory manner, not as those who, having eyes, see not, or having ears hear not, but, in the language of your oath diligently, with assiduity and with the intent and purpose in good faith to find out the truth, and if the commission of the offense be proven to present an indictment or indictments here against the guilty parties, provided the offense be one which, to quote the statutory phrase, is liable in the city and county, and this suggests the inquiry as to what is an offense triable here."

"I instruct you that any offense committed in this State, is liable in the city and county of San Francisco if committed here either in whole or in part. If an offense committed in the State, be made up of several distinct and essential acts, such offense may be tried here, and consequently may be investigated by you, if any one of such acts be done here in the city and county."

"I have thus touched upon nearly every subject supposed to be necessary now. There is one matter, however, not yet adverted to, which is of importance, as much, perhaps more, than the rest—that is, that you remember that you are not organized to accuse anyone, neither are you organized to have neither friends nor enemies in this business; that good will and ill will shall alike be put aside; that neither enmity nor friendship shall weigh in your deliberation, but that dismissing all interest, passion and feeling, you only enduring the truth shall be the whole truth and nothing but the truth, according to the best of your skill and understanding."

"It is honesty to be honestly engaged. Gentlemen, you have spoken the word and will not falter."

Miss Ella Crocker Scudder, daughter of Charles L. Scudder, formerly of Sacramento, was married at Belchertown, Mass., on Wednesday last, to R. H. Curtis. Among those present were Mrs. E. B. Crocker of Sacramento, grandmother of the bride, and Mr. and Mrs. J. Sloan Fassett, her uncle and aunt.

The Fresno vineyardists have been obliged to employ Chinese to pick their grapes. They endeavored to obtain Indians but enough could not be found. The Celestials understand the situation, and have entered into a combination among themselves to strike for higher wages.

Trinity Church.—Morning prayer and sermon at 11 A. M.; evensong without a sermon at 7:30 P. M.; Sunday school will meet at 12:30 P. M. Services both morning and evening will be semi-choral. Seats all free and everybody invited.

Next Sabbath at the M. E. Church in the morning, our theme will be: "Waiting Upon God," and in the evening "The Bible a Wonderful Book." A special invitation is given to young men and honest skeptics to be present at the evening service.

The Pine Nut Mines.

Special to the Journal.

CARSON, August 22.—Wm. Zirn opened his mine at Pine Nut for inspection today. E. S. Dougherty, Superintendent of the Carson Water Works, returned to-day, and says the mine is all that Zirn claimed for it. Zirn was offered \$1,000 for permission to work the mine twenty-four hours. In four hours Zirn took out \$1,500. Dougherty with a pick dislodged chunks of gold and decomposed quartz. Since the inspection of Zirn's mine the price of ground in the vicinity has advanced.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

BUSINESS, LOCAL AND NEWS ITEMS.

For fine boots and shoes go to H. F. Pavola.

Fine eastern hams and Bacon at W. S. Bailey's.
